JUNIOR FULL STACK SOFTWARE DEVELOPER

PERSONAL PROFILE

Experienced self-taught musician with over two decades of playing and performing. Passionate about sharing music with diverse audiences. Accomplished in playing for bands, weddings, concerts, and churches. Former worship leader skilled in managing singers, musicians, and technical crews utilizing lighting and multitrack software. Even outside of work, I have found myself in leadership roles that have further increased my ability to face diverse challenges and help bring the best of others into a project. Enrolled in the mobile app development program at Mountwest CTC at the same time as applying for the NewForce program, eager to pursue a career in software development as soon as possible. Committed to continuous learning and adaptability, whether that is coding, music, electronics repair, new software, algorithms to solve a Rubik's cube, or even juggling – there is never a bad time to learn something new and bring a bit more joy into your life or the life of another.

PROJECTS

Honey Rae's Repairs

In this project, I developed a client-side application for Honey Rae's Repairs, a fictional repair shop. The goal was to create a user-friendly interface that allows customers to manage their repair tickets and employees to claim and work on assigned tickets. The main technologies that were utilized were React, JavaScript, and HTML/CSS.

Before I Go

This platform aims to preserve cherished memories in a focused, private space while avoiding cluttered social media threads. It includes pages for journal entries, photo memories, as well as an "about me" section. By sharing a view code (URL containing a changeable, unique UUID), users can give viewing access to anyone. My goal was for my program to create a calming, nostalgic environment in which the user can leave their valuable memories for their predecessors and loved ones. The main technologies that were utilized were React, JavaScript, and HTML/CSS.

EDUCATION

NEWFORCE, APRIL 2024 - PRESENT

Software Development Training Program
In Partnership with MountwestCTC

AAS, AUGUST 2023 - PRESENT

IT, Mobile Application Development, 32 Credits
Mountwest CTC

PTK, MAY 2024 - PRESENT

Phi Theta Kappa Honor Society, Alpha Eta
Upsilon Chapter member

TECHNICAL EXPERIENCE

Junior Full Stack Developer

NewForce   *April 2024-Present*

Intensive full-time 6-month software development immersive training program focusing on full stack (C#/.NET) development fundamentals and problem solving. The final half of the program is executed in a simulated company environment with Scrum methodology.

- Applied object-oriented programming fundamentals through team-based projects that reflect real world business problems
- Collaborated remotely on projects using Slack and Zoom
- Managed source code version control with Git/ GitHub
- Applied JavaScript, HTML, and CSS fundamentals to build a feature-rich social media dashboard
- Leveraged native ES6 module bundling to build DRY, reusable components
- Designed and built single-page applications with React using Hooks
- Designed applications through white boarding dependencies and building ERD's
- Built and interacted with databases using SQL and ADO.NET
- Developed a blog management platform in ASP.NET, MVC, and Razor templates in Visual Studio 2019
- Created RESTful Web API with C#/ .NET Core and connected it to a React front-end
- Built and maintained integration tests in .NET Core

WORK EXPERIENCE

IT Helpdesk

Mountwest Community and Technical College   *August 2023 - May 2024*

- Provided technical assistance to faculty, staff, and students through phone calls, email, and in-person communications
- Maintained knowledge of a variety of technical issue solutions, including hardware, software, and network issues
- Completed administrative duties using Microsoft Azure and other software as needed
- Assisted with restoring existing staff and student accounts as needed
- Resolved documented technical issues with OS Ticketing
- Created new staff and student accounts as needed

Procurement Manager

MRNB, Inc. DBA AssuredCare LTC   *September 2021 - December 2022*

- Managed and maintained the pharmacy's medications by performing daily inventory analysis, accuracy checks, and purchasing duties
- Negotiated purchase pricing and discounts / quotas through vendor relations
- Created implementation of a few pharmacy best practices through project management and problem solving
- Planned and completed customer-focused compliance projects as needed

Work Experience Continued

Lead Pharmacy Technician

PharMerica   *July 2015 - September 2021*

- Managed and maintained the pharmacy's medications by performing daily inventory analysis, accuracy checks, and purchasing duties
- Maintained a high drug turnover rate and helped pharmacy stay under corporate goals
- Worked within multiple departments as needed throughout the day in addition to main tasks
- Led monthly inventory audits with a small team / inventory company and prepared monthly audit spreadsheets and reports for our regional corporate accountant
- Helped startup locations by visiting sites to offer purchasing guidance as needed

Shift Lead - CPhT

Walgreens   *April 2011 - March 2016*

- Assumed all roles of management in maintaining the store's operational integrity.
- Led team members throughout the day in their roles, training, corporate-assigned promotions, and special projects
- Performed management, front-end, photo, and pharmacy technician roles as needed
- Utilized goal-setting and creative thinking for product placement projects/special events
