JUNIOR FULL STACK SOFTWARE DEVELOPER

PERSONAL PROFILE

I am a devoted life long learner with a passion for cultivating new skills and working on creative projects in a team environment. I enjoy problem solving and have developed skills in communication, troubleshooting and planning. My 10 years working in retail and customer service and my experience as a freelance writer, photographer and artist have given me experience in working with teams, communicating with clients and customers and providing meaningful experiences and services.

PROJECTS

Self Guided Comic Curriculum

A web application designed to allow students to build their own self guided curriculum. The app follows a basic CRUD format and enables users to choose their own text books, assignments and online resources and create their own learning modules. The app is geared towards learning how to make comics, a personal hobby and passion of mine, but the app could be formatted to teach any kind of subject.

EDUCATION

NEWFORCE, AUGUST 2023 - PRESENT

Software Development Training Program
In Partnership with MountwestCTC

FAIRMONT STATE UNIVERSITY

TECHNICAL EXPERIENCE

Junior Full Stack Developer

May 2024-Present

NewForce

Intensive full-time 6-month software development immersive training program focusing on full stack (C#/.NET) development fundamentals and problem solving. The final half of the program is executed in a simulated company environment with Scrum methodology.

- Applied object-oriented programming fundamentals through team-based projects that reflect real world business problems
- Collaborated remotely on projects using Slack and Zoom
- Managed source code version control with Git/ GitHub
- Applied JavaScript, HTML, and CSS fundamentals to build a feature-rich social media dashboard
- Leveraged native ES6 module bundling to build DRY, reusable components
- Designed and built single-page applications with React using Hooks
- Designed applications through white boarding dependencies and building ERD's
- Built and interacted with databases using SQL and ADO.NET
- Developed a blog management platform in ASP.NET, MVC, and Razor templates in Visual Studio 2019
- Created RESTful Web API with C#/.NET Core and connected it to a React front-end
- Built and maintained integration tests in .NET Core
