## JUNIOR FULL STACK SOFTWARE DEVELOPER

### PERSONAL PROFILE

I have cultivated a deep passion for technology through my educational pursuits. My professional journey has consistently centered around leveraging technology to enhance operational efficiencies and improve user experiences, as well my personal journey including earning certificates in Responsive Web Design and JavaScript Algorithms and Data Structures, etc.. which advanced my proficiency in front-end development technologies. As I continued my education in the NewForce Software Development Training Program at MountWest, my commitment to technological innovation deepened. This background, combined with my enthusiasm for creating structured plans and collaborating on groundbreaking projects, equips me with a unique perspective that I am eager to apply in a tech-centric role, contributing to meaningful technological advancements and delivering outstanding customer service.

### PROJECTS

#### Cider falls park

Group project, my team will built a mock web application for the rangers at a Cider Falls Park to keep track of visitors at the park, and display all of the amenities available in each park area.

#### Music-is-Key!

Song "Key" tracking app that uses a third-party app to generate information about a song so that the user can log the information. The app analyzes the data to provide personalized insights and generate a playlist based on the tracked song keys. Additionally, it offers the user the opportunity to like/comment on songs uploaded. The app also features data visualization tools to help users understand their mental states over time.

### EDUCATION

#### NEWFORCE, APRIL 2024 -PRESENT

Software Development Training Program  
In Partnership with MountwestCTC

[freeCodeCamp.org](https://freeCodeCamp.org)  
coding education, interactive learning, and certifications

### TECHNICAL EXPERIENCE

#### Junior Full Stack Developer

*NewForce* *Aug 2023-Present*  
Intensive full-time 6-month software development immersive training program focusing on full stack (C#/.NET) development fundamentals and problem solving. The final half of the program is executed in a simulated company environment with Scrum methodology.

- Applied object-oriented programming fundamentals through team-based projects that reflect real world business problems
- Collaborated remotely on projects using Slack and Zoom
- Managed source code version control with Git/ GitHub
- Applied JavaScript, HTML, and CSS fundamentals to build a feature-rich social media dashboard
- Leveraged native ES6 module bundling to build DRY, reusable components
- Designed and built single-page applications with React using Hooks
- Designed applications through white boarding dependencies and building ERD's
- Built and interacted with databases using SQL and [ADO.NET](#)
- Developed a blog management platform in [ASP.NET](#), MVC, and Razor templates in Visual Studio 2019
- Created RESTful Web API with C#/.NET Core and connected it to a React front-end
- Built and maintained integration tests in .NET Core

### WORK EXPERIENCE

#### Operations Manager

*Home2 Suites by Hilton* *Sept. 2023 - Present*

- Direct daily hotel operations, enhancing overall operational efficiency and guest satisfaction through strategic management and staff training.
- Oversee budgeting, expense management, and the implementation of cost-saving measures, significantly increasing the profitability of the hotel operations.

#### Night Auditor

*Home2 Suites by Hilton* *March 2022 - Present*

- Oversee front desk operations during the night shift, ensuring all guest needs were met while maintaining accurate financial records and performing daily audit procedures.
- Manage booking reservations, handle late-night check-ins and check-outs, and resolve any guest issues, maintaining high standards of customer service.
