JUNIOR FULL STACK SOFTWARE DEVELOPER

PERSONAL PROFILE

Detail-oriented and motivated Junior Developer with 6 months of technical experience from NewForce, combined with a strong background in customer service and problem-solving. Eager to contribute to a dynamic development team where I can leverage my skills to create innovative solutions and enhance user experiences. Passionate about continuous learning and growth, I am seeking opportunities to further develop my expertise in software development. I bring a positive attitude and I am committed to making meaningful contributions to my projects within a work environment.

PROJECTS

Hear the Anthem

“Hear the Anthem” is your digital gateway to explore new culture and traditional food in which everyone will find something unforgettable for themselves! Enjoy our cozy corner of the Ukrainian tradition culinary. And stay tuned for even more convenience with a future shopping cart feature, bringing the joy of our cuisine right to you for easy online ordering. Behind the users(for admin), platform offers full CRUD functionality for the admin menu. Admins can manage our offerings, adding new dishes, updating existing ones, removing items, and keeping the menu nice with just a few clicks.

Get ready to savor every moment – because at “Hear the Anthem” dining is an experience worth to feel!

EDUCATION

NEWFORCE, AUGUST 2023 - PRESENT

Software Development Training Program

In Partnership with MountwestCTC

TECHNICAL EXPERIENCE

Junior Full Stack Developer

NewForce

Aug 2023-Present

Intensive full-time 6-month software development immersive training program focusing on full stack (C#/.NET) development fundamentals and problem solving. The final half of the program is executed in a simulated company environment with Scrum methodology.

- Applied object-oriented programming fundamentals through team-based projects that reflect real world business problems
- Collaborated remotely on projects using Slack and Zoom
- Managed source code version control with Git/ GitHub
- Applied JavaScript, HTML, and CSS fundamentals to build a feature-rich social media dashboard
- Leveraged native ES6 module bundling to build DRY, reusable components
- Designed and built single-page applications with React using Hooks
- Designed applications through white boarding dependencies and building ERD's
- Built and interacted with databases using SQL and ADO.NET
- Developed a blog management platform in ASP.NET, MVC, and Razor templates in Visual Studio 2019
- Created RESTful Web API with C#/.NET Core and connected it to a React front-end
- Built and maintained integration tests in .NET Core
